

# COMPOSITE TECHNOLOGIES *Symposium*

13 & 14 September 2012  
9am - 5pm  
TUM Asia, Pixel Building #01-03

Lunch & refreshments will be provided.

*There will be a registration fee\* of \$321 (incl. GST) per individual.*

## *Keynote* Speakers

**Professor Klaus Drechsler** graduated from the University of Stuttgart with a MSc in Aerospace Engineering. He went on to pursue his PhD, with his PhD thesis focus on new structural concepts for composite materials. Professor Klaus Drechsler has held many prestigious positions at various companies, such as Head of Composite Materials and Process Technologies at EADS Innovation Works and Managing Director of the Institute of Aircraft Design at the University of Stuttgart. Since 2009, he is the Director of the Institute for Carbon Composites at TU Munich as well as the Director of the Fraunhofer Group for Functional Lightweight Design in Augsburg. Professor Drechsler also currently holds positions in SAMPE (Past President) and Saxonian Academy of Science (Member).

**Professor Peter Middendorf** graduated from the Universität der Bundeswehr München with a degree in Aerospace Engineering. His PhD thesis was focused on structural mechanics of composites. Prof Middendorf had several positions at EADS Innovation Works within the domain Composite Technology and Lightweight Design, and was Senior Expert and Head of Structure Integration and Mechanical Systems. After his time at EADS Innovation Works, he was Director of Research and Innovation of the EADS helicopter division in Eurocopter Germany. Since 2012, he is Director of the Institute of Aircraft Design at the University of Stuttgart.

Other speakers include Dr. FC Yee (ST Engineering), Dr. Hubert Jaeger (SGL Carbon), Andreas Erber (TU Munich), Tan Meng Ho (Kuka), Guido Grave (Herzog), Felix Fröhlich (Munich Composites)

\*A payment invoice will be sent to your company address after your online registration.
